

RAUNAK KUMARI

AI/ML Engineer | Full-Stack Developer

Noida, Uttar Pradesh | +91 8271022786 | kumariraunak1920@gmail.com
GitHub | LinkedIn | Portfolio

Professional Summary

Computer Science Engineering undergraduate specializing in Artificial Intelligence and Machine Learning with hands-on internship experience in AI/ML and Web Development. Skilled in Python, Java, JavaScript, React.js, Node.js, MongoDB, SQL, Machine Learning, and Data Structures & Algorithms. Experienced in developing AI-powered applications, full-stack platforms, Android applications, and responsive web solutions. Solved 100+ coding problems on LeetCode and interested in Software Development and AI/ML internship opportunities.

Education

ITS Engineering College, Greater Noida	2024 – Present
Bachelor of Technology in Computer Science Engineering (AI/ML)	CGPA: 8.0/10
Gorakh Singh College, BSEB	2023
Intermediate (Science)	Percentage: 82%
SVM, CBSE	2021
Secondary Education	Percentage: 85%

Experience

Web Developer Intern InAmigos Foundation	Jun 2026 – July 2026
- Developing responsive web applications using HTML, CSS, and JavaScript while applying frontend development and responsive design principles. - Building and improving user-facing features, debugging web interfaces, and strengthening practical software development skills. - Collaborating on assigned development tasks and completing project-based deliverables in a remote internship environment.	
Artificial Intelligence & Machine Learning Intern Code More	Jun 2026 – Jul 2026
- Worked on practical Artificial Intelligence and Machine Learning projects using Python, Pandas, and data-driven workflows. - Applied data preprocessing, exploratory data analysis, and machine learning concepts while developing AI/ML project solutions. - Strengthened hands-on experience in Python programming, machine learning workflows, AI application development, and problem solving.	

Technical Skills

Programming Languages: Python, Java, C, JavaScript, SQL
Frontend: HTML5, CSS3, React.js, Responsive Web Design
Backend: Node.js, Express.js, REST APIs
Databases: MongoDB, Firebase, SQL
AI/ML: Artificial Intelligence, Machine Learning, Generative AI, Pandas, Streamlit, Microsoft Azure Machine Learning
Mobile Development: Android Development, XML
Core CS: Data Structures & Algorithms, Object-Oriented Programming, DBMS, Operating Systems
Tools & Cloud: Git, GitHub, VS Code, AWS Cloud Foundations

Projects

AI Resume Analyzer	Live Demo
- Developed and deployed an AI-powered web application that analyzes resume content and provides actionable feedback for resume improvement. - Implemented automated resume processing and analysis workflows to help users identify skill gaps and improve job readiness. - Built an interactive Streamlit interface for resume input, analysis, and user-friendly presentation of generated insights. Tech Stack: Python, Streamlit, Artificial Intelligence, Text Processing	
Smart Matrimonial & Event Service Platform	GitHub
- Built a full-stack platform featuring secure authentication, role-based access control, and real-time communication. - Developed responsive React.js interfaces and RESTful backend services for application workflows and MongoDB-based data management. - Implemented JWT authentication and role-based authorization to manage secure access to application features. Tech Stack: React.js, Node.js, Express.js, MongoDB, REST APIs, JWT Authentication, Real-Time Chat, RBAC	
Smart Self-Service Kiosk Management System	GitHub
- Developed an Android-based self-service kiosk application integrating QR/Barcode scanning and real-time service management. - Integrated Firebase and APIs to support application workflows, data management, and service operations. Tech Stack: Java, Android Development, Firebase, XML, QR/Barcode Integration, API Integration	

AI Study Planner

Live Demo

- Developed and deployed an AI-powered application that generates personalized study schedules based on user goals and learning preferences.
- Implemented task prioritization, personalized planning workflows, and progress tracking to support effective study management.
- Built an interactive Streamlit interface for accessible online usage and a user-friendly planning experience.
- **Tech Stack:** Python, Streamlit, HTML, CSS, AI Logic

Certifications

- AWS Academy Graduate – Cloud Foundations
- Microsoft Azure AI Fundamentals
- ReactJS and Node.js – LetsUpgrade
- Mastering Data Structures & Algorithms using C and C++
- The Complete SQL Bootcamp
- Generative AI Certification

Achievements

- Solved **100+ Data Structures & Algorithms problems** on LeetCode.
- Participated in multiple college-level hackathons and technical competitions.
- Built and deployed AI-powered, full-stack, Android, and responsive web applications.
